**EXCLUSIONS:** This SUMMARY OF BENEFITS highlights the standard benefits of the HMO Point of Service contract.

Benefits shown may be subject to Restrictions, Exclusions and Limitations found in the Group Subscriber Contract.

## **Prescription Rider Rx “Mandatory Generic”**

The following rider is an addendum to the “Group Subscriber Certificate of Coverage” which provides for the provision of all basic health services.

### **Benefits**

The “Benefits” section of the Group Subscriber Certificate of Coverage is amended as follows:

#### **Outpatient Prescription Drugs or Medicines:**

- This rider covers only generic prescription drugs unless there is no generic drug available within an entire class of drugs or this rider specifically states that brand name drugs as well as generic drugs of a particular type are covered. If no generic drug is available within an entire class of drugs, all brand name drugs within that class of drugs are covered.
- If a member has suffered, or is likely to suffer, adverse side effects from all of the generic drugs within a class of drugs, the Plan will approve coverage of a brand name drug within that class at the request of the member. The Plan’s decision will be subject to utilization review.
- Outpatient Food and Drug Administration (FDA) approved prescription drugs or medicines are covered when medically necessary and prescribed by a licensed Provider. Each prescription is limited to a maximum 30-day supply, with up to four refills when authorized by a licensed Provider.
- If you purchase a covered drug at a non-participating pharmacy, you must pay the retail price for the drug, and then submit a claim for reimbursement from the Plan. Reimbursement for drugs purchased at non-participating pharmacies will be limited to the Reasonable Charge for the drug minus the co-payment.

#### **Prescription drug coverage also includes:**

- Medically necessary enteral formulas for home use when prescribed by a licensed provider. The formula must have been proven effective as a disease-specific treatment regime for those individuals who are or will become malnourished or suffer from disorders, which if left untreated, cause chronic disability, mental retardation or death. This rider covers brand name and generic enteral formulas.
- Modified solid food products that are low protein, when medically necessary for certain inherited diseases of amino acids and organic metabolism.
- Hypodermic needles and syringes used to administer medications that are covered by Atlantis, when prescribed by a licensed practitioner and purchased through a Plan Pharmacy.
- Certain non-FDA approved prescribed drugs, whether brand name or generic, recognized for the treatment of specific types of cancer by one of the following:
  - A. the American Medical Association Drug Evaluations;
  - B. the American Hospital Formulary Service Drug Information; or
  - C. the United States Pharmacopoeia Drug Information; or recommended by review article or editorial comment in a major peer reviewed professional journal.
- Allergy Serums, whether brand name or generic.
- Bone mineral density brand name and generic prescription drugs and devices including those covered under the federal Medicare program and those in accordance with the criteria of the National Institutes of Health and if consistent with such criteria, dual-energy x-ray absorptiometry. Covered Services shall be provided to a Member who qualifies under the criteria of the federal Medicare program and the criteria of the National Institutes of Health. This includes a Member who meets the following criteria:

- i. The Member has previously been diagnosed with osteoporosis or has a family history of osteoporosis; or
  - ii. The Member has symptoms or conditions indicative of the presence, or the significant risk, of osteoporosis; or
  - iii. Member is on a prescribed drug regimen posing a significant risk of osteoporosis, or
  - iv. The Member's age, gender, other physiological characteristics and/or lifestyle factors pose a significant risk of osteoporosis.
- For Members between the ages of twenty-one (21) and forty-four (44), brand name and generic prescription drugs approved by the federal FDA for use in the diagnosis and treatment of infertility. There is no coverage for Prescription drugs used in connection with any infertility service which is specifically excluded from coverage.
  - You have the right to file an appeal with an independent, outside review panel whenever the Plan denies coverage for prescription drugs because the drug is not considered medically necessary or is considered an experimental or investigational treatment. Further details as to how you may request an appeal are provided in the Certificate of Coverage.

### **Mail Order/ Maintenance**

- You are encouraged to utilize our Mail Order/ Maintenance program if you are required to use a maintenance drug on the Plan's approved list.
- Maintenance drugs are covered for a 90-day supply upon a written prescription by a Licensed Provider.
- The mail order option allows you to obtain a 90-day supply of maintenance drugs in the following categories: anti-diabetics, anti-hypertensives, anti-hyperlipidemics, beta-blockers, calcium blockers, diuretics and thyroid medications.

### **Co-payments**
